

2009 JAMIS PARKER I

Gloss Black

FEATURES/BENEFITS

The '09 Parker platform offers a lowered top tube and shorter/stiffer/lighter front & rear triangles, so it can be whipped around a lot easier

With our proven mp2 suspension design (think XLT!), over-sized and gusseted 7005 aluminum tubes, 10mm shock hardware and sealed cartridge pivots with CNC'ed hardware, the new Parker built to rip

Fox's Float R air shock handles the Parker's 100mm rear travel, smoothly reliably & dependably, with an easily accessed external rebound damping adjuster to fine tune the ride

The Parker's wheel travel/shock stroke leverage ratio is a LOW 2:1, resulting in a super responsive suspension system that doesn't over-work the rear shock

Rock Shox's Domain 302 U-Turn delivers a 115 - 160mm of adjustable travel for riding every kind of terrain, in every kind of way. With plush coil-sprung suspension, external rebound damping, massive 35mm stanchions, a forged/hollow AL66 TV crown and Maxle 360 20mm thru-axle, this fork is ready for it all

FSA's new StepUp cranks with ISIS splined BB and 32 x 22T heat-treated chromoly rings, does just that. They Step Up! With chromoly pedal inserts in the crank arms for extra durability

We add e13's SuperCharger bashguard: the first and still best, full thermoplastic bashguard ever made. Obscenely strong, surprisingly lightweight, with no metal to bend

Hayes Stroker Ryde hydraulic disc brakes were designed with insulated caliper pistons to control fluid temperature eliminating lever fluctuation & provide a reliable feel every ride, all conditions

The large brake pads yield optimal heat management and, in tandem with the V7 185mm rotor up front and V6 rotor in back, deliver lots of power.

Shimano's Deore XT Shadow rear derailleur features a QUIET super low-profile design that won't slap the chainstay in rough riding conditions. Direct cable routing reduces the risk of housing snag

And on the Parker, we spec the mid-cage version, so derailleur ground clearance is increased, preserving and extending the life of the derailleur. Shifts are snappier too

Syncros is famous for building parts that can take the abuse of the most hardcore riders. Their AM20 Riser Bar and FR Stem are no exception. Parker shouts it loudly with a for-Jamis-only custom stem color!

WTB's Dual Duty FR eyeletted rims are built to take both the abuse of big drops as well as the big-rotor'ed disc brake torque. They're clad with the most popular rubber in the country: Kenda Nevegals

UPGRADES FROM 2008

New frame design with a CNC'ed pivot hardware

Lower standover all frame sizes, with constant seat tube length on all frame sizes

Shimano Deore XT mid-cage Shadow rear derailleur with new SLX front derailleur

Kenda Nevegal 2.35" tires

NEW FSA StepUp crank

Syncros FR 50 stem with custom Jamis color

Rock Shox Domain with custom Jamis color

REASONS TO GET A PARKER I NOW!

Because you want a Superman bike that can DO EVERYTHING: Dirt Jumping, Trail Riding, Slope-style Park riding, Urban

Because you want a bike that you can race Duals with, then go out on a trail ride with the guys & girls from the shop

Because you want to go bike like Jordie Lunn

With front-end travel adjustable from 115 to 160mm and with super-responsive 2:1 leveraged 100mm travel in the rear: YES YOU CAN!

SPECIFICATIONS

Frame	7005 aluminum all tubes, over-sized cartridge bearing pivots, fully-active mp2 suspension design, 100mm travel Float R rear shock with 10mm hardware, replaceable derailleur hanger
Fork	Rock Shox Domain 302 U-Turn, 35mm stanchions, external rebound damping adjuster, Maxle 20mm axle, 115-160mm travel
Headset	Zero-Stack internal cup, threadless, 20mm shim stack, 1 1/8"
Wheels	WTB Dual Duty FR eyeletted rims, Formula 20mm thru-axle front & Shimano M475 rear disc hubs, WTB 14g stainless steel spokes
Tires	Kenda Nevegal, 26 x 2.3"
Derailleurs	Shimano Deore XT Shadow rear, mid-cage, Shimano SLX front, 34.9mm top pull
Shiftlevers	Shimano Deore Rapidfire-SL, 27-speed
Chain	KMC Z9000
Cassette	SRAM Powerglide 950, 9-speed, 11-32
Crankset	FSA Step Up, 32/22T heat-treated chromo chainrings, 170mm, with e-13 SuperCharger bash guard
BB Set	FSA ISIS, sealed cartridge, 73 x 118mm
Pedals	Flatbed alloy platform with pedal spikes
Brakeset	Hayes Stroker Ryde Hydraulic disc brakes, V8 front & V7 rear rotors
Handlebar	Syncros AM 20 riser, double-buttet 6061, 31.8 O" x 9/4" sweep x 20mm rise x 670mm
Stem	Syncros FR 50, 3D forged 6061, 31.8 bar bore x 15° rise X 50mm
Grips	WTB Weirwolf, dual DNA compound
Seat Post	Syncros Derived 2-piece OS, 31.6 x 350mm with alloy QR clamp
Saddle	WTB Pure V with black diamond cover & corners
Sizes	15.5" (S), 17" (M), 18" (L)
Color	Gloss Black
Weight	36.50 lbs
